

Your Strathfield Clean Up!

The new and improved pre-booked clean up system for a better, cleaner neighbourhood.

Welcome to the Strathfield Clean Up information pack!

In this brochure you will find:

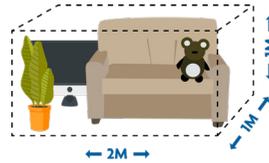

1. Handy collection tips and tricks
2. The right and wrong items guide

It's important that you read this information and follow the guide before placing your items out for collection. Placing the wrong items out for collection can be hazardous to your community and the environment.

Plan ahead

Plan your Strathfield Clean Up well ahead of time so that your items are ready for collection on the day of your booking.

Remember - only 2 cubic metres!

We only accept up to 2 cubic metres per clean up for a single collection. If you have over 2 cubic metres you can book a double collection (up to 4 cubic metres).

*Please note you are only eligible for two collections per year and by booking a double collection you acknowledge the use of your two annual clean ups.

Don't put waste out too early!

You should only put your items out for collection within 24 hours of your Strathfield Clean Up booking date. Items placed out too early can become hazardous to your community and the environment.

Remember where to put your waste

Please be sure to place your items for collection in the area you specified on your booking form (for example: front of house).

Secure garden waste

Make sure all branches and garden vegetation cuttings are bundled and securely tied. Only tree branches up to 1 meter long and 15 centimeters in diameter will be collected.

Don't Forget!

Make sure you set yourself a reminder so you don't forget to put your Strathfield Clean Up out on-time!
